Union Strong: Say NO to Freedom Foundation When They Knock on Your Door

An anti-union group called the Freedom Foundation recently held a press conference announcing that they will begin knocking on union members’ doors in Ohio, encouraging them to quit their unions. The group has opened a Columbus office and has posted job ads for canvassers to conduct these efforts. An online video of their new state director notes, with pride, their prior success defunding and weakening unions.

Prior to popping up in Ohio, the activities of the Freedom Foundation have been concentrated in California and the Pacific northwest. According to watchdog group, Northwest Accountability Project, the Freedom Foundation is an affiliate of the State Policy Network, a national network with ties to groups that attack the LGBTQ community, communities of color, women’s rights, and fuel white supremacy in our country.

If a stranger knocks on your door and encourages you to drop your membership in CEA, just say, “NO.” Without a strong union, we can’t fight for the Schools #ColumbusStudentsDeserve, negotiate strong contracts, represent members, build political power for educators, offer professional development, engage in community involvement, offer social opportunities, or any of the many other things we do. For more information about the Freedom Foundation, visit nwaccountabilityproject.com.

**Grievance Update**

Your Association works hard to protect your rights and maintain the integrity of the negotiated contract. While we advise bargaining unit members to work out problems at the building level first, we know this isn’t always possible. We will inform you of the grievances CEA is working on for you on a regular basis.

**Bed Bugs: Remain Vigilant**

Bed bugs are small, reddish-brown, oval-shaped, flat insects that are about 1/4-inch long. They feed on humans at night, then crawl away to hide in the cracks, crevices, and recesses of furniture. Bed bugs do not transmit disease. **STUDENTS ARE NOT TO BE EXCLUDED FROM SCHOOL FOR BED BUGS.**

Bites are usually along a line, especially on the head and upper body. There is usually a pattern to the bites. Bed bugs are spread through the acquisition of infested second-hand furniture or by "hitchhiking" on items used during travel such as suitcases, outwear, and other belongings. Once established, bugs can move through a building by crawling or transporting on humans.

Follow these procedures if you suspect you have found a bed bug in your building:

- **Save the bug in a Ziplock bag or a bottle.**
- **Call Buildings & Grounds at (614) 365-5268.** They will have specialists from a professional pest control company come to the school to identify the bug.
- **Isolate the source where the bed bug was found, such as a book bag or on clothing, and place it in a plastic bag.**

Clothes and outerwear may be a source. If the professional pest control company identifies the bug as a bed bug, the school Administration should send a form letter home with the child involved notifying the parents or guardians.
